

NMC is an international group of companies in the field of synthetic foams, which provides people with comfort and protection for a better life. Spread over 24 locations, 1650 colleagues make their contribution to our further growth. We invite you to become part of our team!

IT Lead MES and PLM Systems (m/f/x)

Lead the design, software configuration and software development, implementation and maintenance of Manufacturing Execution Systems (MES), Shop Floor Control Systems (SFC) and Product Life Cycle systems (PLM).

MAIN TASKS

- Gather and analyse user requirements, needs of the business and ensure appropriate solutions are delivered
- Respond to incidents and agreed change requests
- Monitor the systems to keep them up and running
- Manage the outsourced Vendor support for MES, SFC and PLM systems
- Maintain up to date all documentation related to the systems and support
- Lead assigned projects, you are ready to travel 10-25% of your time

YOUR PROFILE

- Bachelor's degree in IT, Engineering or Science, with 3 to 5 years' experience with MES/SFC/PLM systems
- Experience in Industry 4.0 or Smart Manufacturing is a plus
- Knowledge of Java or JavaScript, .Net, and of IOT is a plus
- Fluent in English (spoken and written), and a good working knowledge of either German or French

YOUR STRENGTHS

- Excellent analytical skills, agility and ability to solve problems in an international, more complex industrial environment
- Proven project management and communication skills based on a positive and human centred mindset
- Result-driven, methodical and hands-on approach.
- Open personality, team player attitude with good networking skills

OUR OFFER

- A multi-cultural working environment that promotes diversity, ownership and personal professional development
- The stability and long term orientation of an international family owned company
- Versatile hands-on training and personal skills development offers

We look forward to getting to know you. Please submit your application to jobs.nmc@nmc.be
