

NMC is an international group of companies in the field of synthetic foams, which provides people with comfort and protection for a better life. Spread over 24 locations, more than 1700 collaborators make their contribution to further growth. We invite you to become part of our team!

To strengthen our IT department at our Eynatten site, we are looking for, as soon as possible, a

IT PROJECT & IMPLEMENTATION MANAGER (m/f/x)

This position is involved in the Group's IT projects by providing technical expertise, a structured and critical perspective, and hands on involvement in implementation activities. Working closely with the *Head of IT*, the role contributes to securing sound decision making and ensuring alignment between business needs, market standards, and the solutions implemented.

YOUR TASKS AND RESPONSIBILITIES

- Contribute to the design, evaluation, and execution of IT projects;
- Prepare structured technical options, including risk analyses and trade-offs;
- Formulate pragmatic and fact-based recommendations;
- Critically assess vendor proposals and commercial discourses;
- Actively participate in configurations, integrations, testing phases, documentation, and go-live activities;
- Ensure a deep and practical understanding of the solutions implemented in the field;
- Identify and escalate operational impacts such as workload, dependencies, and technical debt;
- Collaborate closely with the *Head of IT*, executive management and external IT partners.

YOUR PROFILE

- Degree in Business Informatics / Information Systems (software development and databases) or an equivalent qualification;
- Proven experience in selecting, installing, and deploying enterprise applications;
- Solid experience and strong knowledge in project management;
- Very good understanding of complex IT environments and system interactions;
- Ability to analyze business requirements and challenge IT solutions constructively;
- Proficiency in French and/or German, with a good command of English.

YOUR STRENGTHS

- Strong analytical, structured, and pragmatic mindset;
- Confidence in well-argued technical discussions and constructive decision-making;
- Team-oriented and results-driven approach;
- Ability to express a critical viewpoint when necessary and to effectively support validated decisions.

OUR OFFER

- A cross-functional and impactful role within a fast-growing international industrial company with a clear sustainability strategy;
- Concrete projects with a direct impact on the organization;
- Close collaboration with IT management and colleagues from different departments and international subsidiaries;
- An attractive compensation package with additional benefits and opportunities for continuous professional development.

We look forward to receiving your application by email at jobs.nmc@nmc.be
